

KLAFF'S

KITCHENS

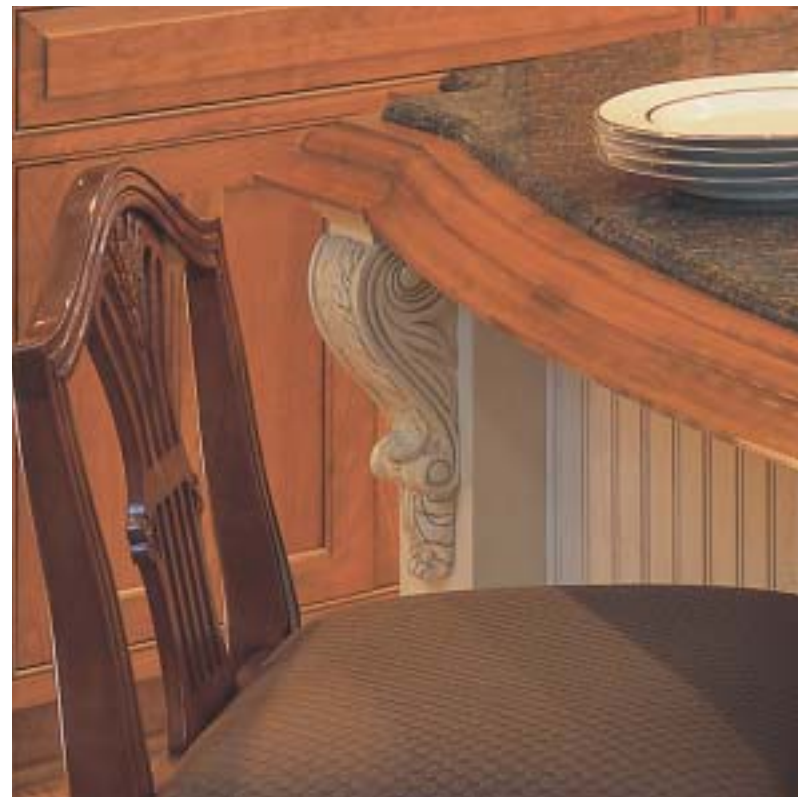

The Professional Collection

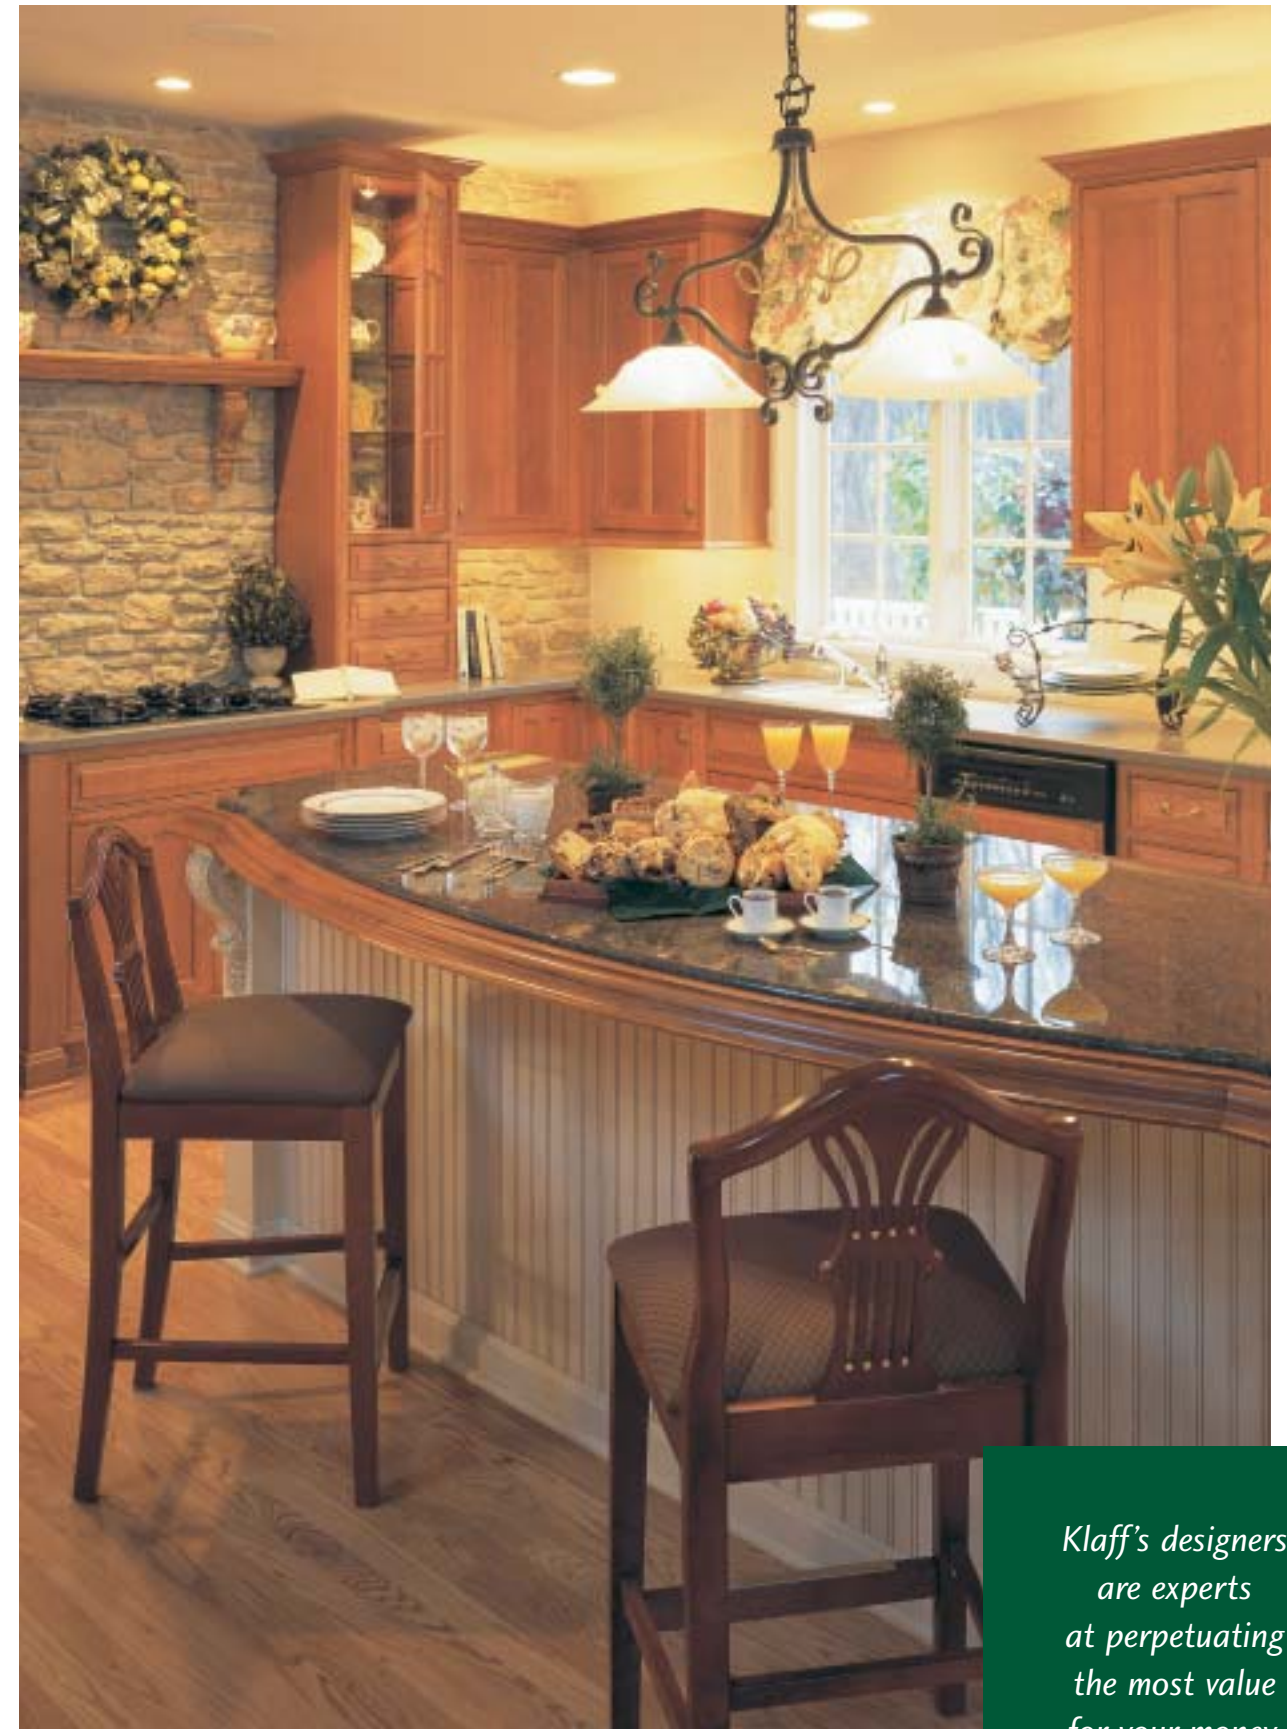

Klaff's Professional Collection; beautiful, pre-coordinated kitchens designed to fit your budget perfectly.

The Professional Collection
The highest quality.
The finest craftsmanship.

On the Cover is a Klaff's Professional Kitchen designed with custom cherry wood cabinets and a wood canopy hood painted to compliment the island. The work-station island has a paint/ glaze finish and was crafted with storage cabinets with furniture detailing. The custom stone backsplash with pictorial tiles visually ties the whole kitchen together.

In this detail photo of the kitchen at the far right, you can see the exquisite intricacies of the carved furniture corbel used as a countertop support. The designers also used a dramatic multiple-step wood edge to frame the stone countertop. All within budget.

The wider photo of this beautiful kitchen reveals the full, magnificent effect of this personalized layout and design. Notice how the beaded inset cabinetry and mix of paint and stain finish treatments all work together to produce a kitchen that looks custom-made.
